

Anvil Cases ATA Shipping Case - Lift Case System

Quick and Easy Set-up or Tear-down at your Fingertips

The Anvil Lift Case system is your answer to raising heavy monitors, displays and projectors. The Lift Case system allows quick and easy set-up and tear down to reduce safety hazards and save precious time. This unique system is available as an option on Anvil A.T.A. cases, which are the proven leader in durable reusable transit cases. Incorporating a self-contained pneumatic lift mechanism, the Anvil Lift Case system raises or lowers heavy equipment at the touch of a finger.

The heavy-duty lift mechanism is adjustable to accommodate various weights and raises to a maximum of 52 inches. Cases equipped with the Lift Case system also utilize Anvil's patented Modular Interlocking Case System hardware, allowing easy storage of case lids.

Anvil Cases ATA Lift Case Construction Features:

Easy access to lift controls	Heavy-duty locking casters
Trap door for pin release	Nylon safety straps secure equipment
